PROFESSIONAL SUMMARY

Driven and detail-oriented Software Developer with a strong foundation in Python, cloud infrastructure, and user interface design. Adept at building end-to-end applications, conducting robust performance testing, and transforming concepts into scalable solutions. Eager to leverage analytical skills and technical expertise to accomplish organizational goals and deliver high-quality digital products.

EXPERIENCE & INITIATIVES

UFS Global

Software Development & Project Management

- Spearheaded application development initiatives, overseeing technical architecture and UI/UX implementation.
- Designed intuitive app screens, dark themes, and UI components using Figma for service applications.
- Developed project management interfaces focusing on clean architecture and seamless user experiences.

KEY PROJECTS

Personal Budget and Expenses Tracker

Web Application Development

- Designed a user-friendly, responsive interface using HTML, CSS, and JavaScript to collect daily financial data.
- Developed the backend architecture using Python to process inputs, categorize spending, and generate budgets.
- Implemented interactive data visualizations to enhance user financial awareness and improve tracking efficiency.

Sudoku Squad

Mobile Game Application

- Designed and developed a comprehensive Sudoku application featuring complex 6x6 and 16x16 grid logic.
- Executed load testing using Apache JMeter, utilizing CSV data sets to simulate high user traffic.
- Created the application's visual identity and interactive UI elements from scratch using Figma.

TECHNICAL SKILLS & TOOLS

Python	HTML & CSS	JavaScript	AWS (EC2, VPC)	Figma	Apache JMeter	Microsoft Excel
Typewriting						

EDUCATION & QUALIFICATIONS

B.Tech - IT	Sri Muthukumaran Institute of Technology, Chennai Score: 79%
HSC (Science)	Manickavasagar HR SEC School Score: 84% (2021)

SOFT SKILLS & LANGUAGES

Core Strengths	Analytical Problem Solving, Effective Communication, Adaptability
Languages	English (Fluent), Tamil (Native)
